LETTER FROM THE GENERAL MANAGER

Happy April, Eaglebrooke!

Excitement is building as we approach a big summer at Eaglebrooke! With our planned greens renovation on the horizon, things are coming together quickly. However, we recognize that this is new territory for our employees, CDD Board, and membership. While we have a plan in place for operations and programming during the closure, we will remain flexible to ensure we're taking the best possible care of our members during this transition.

Playing at Partner Courses

Rick and Maddie have worked diligently to secure special pricing for our members at select regional golf courses during the closure. As a reminder, **all tee times at partner courses must be booked through our team.** When requesting a tee time, please provide:

- ✓ All players' names
- ✓ Preferred date & time
- ✓ Contact information

This helps us coordinate with our partner facilities and ensure a smooth experience. Additionally, since these clubs are generously accommodating us, we ask that you **notify us of any changes** (player count adjustments, cancellations, etc.) to maintain strong relationships with our partners.

Outdoor Dining Update

Our new outdoor dining space is coming together beautifully, and the feedback has been overwhelmingly positive! We initially plan to make this a **pet-friendly area**, and we'll be releasing official patio rules—including dress code—soon. Stay tuned!

Men's Member-Guest Invitational

Before our renovation begins, we have one final marquee event—the **2025 Men's Member-Guest Invitational**—taking place this week. With a **record-breaking 72 teams** competing, it's shaping up to be an incredible tournament. Stop by on **Sunday around 2 PM** to watch the thrilling shootout and see who takes home the championship!

CULINARY NEWS

Happy April, everyone!

From the Chef's Kitchen

Things in the **culinary department** continue to go well, and we've received great feedback on the **new menu!** So far, the most popular dishes are the **Taco Salad, Patty Melt, and Reuben.** Our **Chocolate Chip Cookie** has also been a hit—I highly recommend ordering one for the table before closing out your tab!

Financially, we've had a strong start to the year. In **March, our A La Carte revenue increased by approximately 8%** compared to last year. **Over the first six months of this fiscal year, our total F&B revenue has grown by nearly \$88,000!** Kudos to the entire F&B team for their hard work and dedication!

Behind the scenes, we've been making some **big upgrades** in the kitchen. Recently, we **replaced the garbage disposal**, and we're currently working on **installing a new exhaust fan motor for the hood system.** While these may seem like small changes, commercial-grade equipment comes with a hefty price tag!

CULINARY NEWS

Golf-wise, Mr. Condon is a part of our Men's Golf Association and enjoys playing in their events, he plays throughout the week with many different groups of guys, the Sunday Couples with his wife, and enjoyed our summer Community League! He also talked about how the process of joining the club was super easy and the members and staff are so welcoming that it was easy to get connected within the Eaglebrooke community.

LETTER FROM THE SUPERINTENDENT

Golf Course Renovation & Summer Maintenance Update

As the golfing season winds down, we have completed our spray applications to eliminate the **Jones Dwarf Bermuda grass** on the greens and are now gearing up for a busy summer of course improvements. Our **greens renovation project** will be a major focus, along with various smaller-scale enhancements handled by our maintenance crew.

Greens Renovation Timeline & Process

The greens project is expected to take approximately **two months** to prepare the surface for planting the new **TifEagle Bermuda grass**. Here's a breakdown of the process:

1. **Sod Removal:** The **top 2–3 inches** of sod will be stripped from every green.
2. **Soil Excavation:** Up to **6 inches of soil** will be removed down to the **rock drainage zone** of the greens profile.
3. **New Base Layer Installation:** A **6-inch base layer** of coarse sand and organic materials will be added to enhance **drainage and firmness**.
4. **Tarping & Fumigation:** The new material will be **tarped and fumigated** to ensure it is free from weed seeds.
5. **Waiting Period:** A **10-day wait** will follow fumigation before planting.
6. **Sprigging:** The new **TifEagle Bermuda grass sprigs** will be laid and cut in before the **Fourth of July holiday**.
7. **Grow-In Period:** Our team will take over **watering and fertilizing** to establish the turf, which will take approximately **1–2 months** before we can begin mowing and adjusting the height of cut.

LETTER FROM THE SUPERINTENDENT

Additional Course Improvements

While the greens are being rebuilt, our maintenance team will also be tackling key projects, including:

- ✓ **Leveling tees**
- ✓ **Bunker face repairs**
- ✓ **Drainage improvements**
- ✓ **Tree maintenance**
- ✓ **Sodding & turf enhancements** (working hole-by-hole, starting at #1 and progressing through #18)

While we won't be able to complete every improvement on our list, we are committed to executing each project **correctly** so the results will last for years to come.

Safety & Communication

We kindly ask all **residents and members** to respect the crews working on the golf course. While we understand the curiosity surrounding these changes, please remember that the course will be an **active construction zone**, and certain areas may not be safe for walkers or spectators.

To keep everyone informed, we will provide **regular video updates and progress reports**. If you have any questions or concerns, please feel free to reach out to our **management team**.

Thank you for your support—we're excited for the improvements ahead!

FROM THE YOGA STUDIO

Yoga for Strong & Supported Shoulders

It's no surprise that **insufficient flexibility and strength in the shoulders** can increase the risk of injury—especially for golfers. But how can you improve shoulder mobility and stability effectively?

Understanding and utilizing the **anatomical design of the shoulder joint** is key to unlocking both strength and flexibility.

Join me for my next yoga workshop, “**Yoga for Strong & Supported Shoulders,**” at **Satya Life Yoga on Saturday, April 12th, 2025**. In this session, I'll break down the **mechanics of the shoulder joint** and teach movement techniques that enhance both **mobility and support**. Daily stretching is great, but are you doing the **right** stretches? Are you stretching **enough**—or **too much**? Many people stick to what they know but **unintentionally** neglect key areas, leaving themselves vulnerable to injury. Let's change that.

This workshop will provide:

- ✓ **A comprehensive movement program** that's easy to integrate into your daily routine.
- ✓ **Fascial self-care tips** to promote tissue health and longevity.

No prior yoga experience is necessary! **Register now at satyalife.com**—sign up by **April 11th, 2025, and save \$5!**
